PROGRAMMING
Throughout the year, Concordia presents diverse programming to inspire conversation and spark collaboration. From our annual Summit, to private research briefings, to our year round engagement opportunities, our programming aims to connect Concordia members with social innovators while encouraging participation and contribution beyond our events.

PARTNERSHIP INDEX
The Concordia Partnership Index was developed as a tool for public, private, and nonprofit organizations to evaluate partnership opportunities. The Index ranks countries based on their readiness and need to engage in public-private partnerships (P3s). The inclusion of the need indicators sets the Index apart from other indices that measure P3 environments. While the success of a P3 depends on a country’s political and market structures, the Index recognizes that for a P3 to be truly impactful it must address a large-scale need.

CAMPAIGNS
A Concordia Campaign is a topic-driven effort where we narrow our programmatic, research, and networking focus. Each campaign will consist of a two to five-year commitment from Concordia that advances a specific cause. By establishing a private sector, a public sector, a nonprofit and an academic partner, each campaign employs the Concordia platform to drive focus and attention around an issue.
Since 2011, the Concordia Summit has been convening the world’s most prominent business, government, and nonprofit leaders to build effective partnerships for impact. The annual conference takes place in New York City and serves as a global affairs forum, where thought-leaders and innovators gather to examine the world’s most pressing challenges. Through our cross-sector panel discussions, interviews with prominent world leaders, and topic-specific breakout sessions, participants are able to both learn from industry experts and explore solutions with potential partners.
MEMBER ENGAGEMENT

OFFICE HOURS
In 2014, Concordia launched our Summit Office Hours a series of exclusive, closed-door meetings that allowed our Summit attendees to engage on a more intimate level with members of Concordia’s Leadership Council, former world leaders, and select Summit speakers. These private conversations, limited to groups of 5-10 individuals, offer a unique opportunity for our members to receive insight from some of the foremost thought leaders working to promote public-private partnerships today.

ROUNDTABLE DISCUSSIONS
Concordia Roundtables are member exclusive discussion groups curated by Concordia that allow participants to interact and problem-solve with leading experts in the field, coming out with tangible next steps and ideas for future collaborations. These more narrowed conversations allow our speakers and members to delve deeper into timely topics and emerge from each meeting equipped to face the world’s greatest challenges.

BUILD PARTNERSHIPS
Concordia will build public-private partnerships within the designated topic area, as well as provide networks and support as the partnerships develop.

MEMBER BENEFITS
Our campaign series offers a unique opportunity for members to engage in specific issues for positive social impact.
