

CONCORDIA

## ECONOMIC DEVELOPMENT & INTERNATIONAL FINANCE

The Economic Development & International Finance Pipeline focuses on issues ranging from international monetary and fiscal policy to financial inclusion and impact investing. Concordia Members in this Working Group will address political risk and investment climates, market-based approaches to policy initiatives, and growth opportunities for small and medium enterprises. Collaboratives of Advisors and Partners are working together to harness the power of global philanthropy, to promote sustainable and responsible investment, and to supply economic opportunities to the world's bottom billion.
