

CONCORDIA

EDUCATION, ENTREPRENEURSHIP, & WORKFORCE DEVELOPMENT

The Education, Entrepreneurship & Workforce Development Pipeline focuses on issues ranging from employment and skills matching within the job market to technology and access to education. Concordia Members in this Working Group address the changing demands of a 21st century workforce, embracing technology in higher education, and the exploration of new models for learning systems. Collaborative Advisors and Partners are working together to continually innovate within academia, to prioritize education for migrant populations, and to support youth entrepreneurship in the Middle East and North Africa.
