

# CONCORDIA

## HUMAN RIGHTS & CIVIL LIBERTIES

The Human Rights & Civil Liberties Pipeline focuses on issues ranging from human trafficking and modern day slavery to migrant populations and the refugee crisis. Concordia Members in this Working Group address changing the narrative in refugee discourse, supporting emerging democracies, and ensuring equal rights for minority and at-risk communities. Collaborative Advisors and Partners are working together to rid corporate supply chains of slave labor, to engage the private sector in addressing the Syrian refugee crisis, and to ensure basic human freedoms globally.
