

CONCORDIA

SHARED VALUE & SOCIAL IMPACT

The Shared Value & Social Impact Pipeline focuses on issues ranging from corporate philanthropy and social responsibility to capital mobilization and business school training. Concordia Members in this Working Group address triple bottom line mindsets, the mechanics of partnership-building, and the assignment of metrics to social impact initiatives. Collaborative Advisors and Partners are working together to prioritize private sector investment in the U.N. Sustainable Development Goals, to support shared value initiatives within corporate culture, and to find business solutions to social problems.
